

Action Inquiry - Advanced Practitioner Programme

For the first time, we're delighted to offer a 3-phase workshop for certified debriefers of the GLP and other sentence completion instruments. The Advanced Practitioner Programme addresses the "what next" questions of the first workshop towards developing a wider community of practice and inquiry.

The programme will accelerate your understanding and practice of the GLP and Action Inquiry at individual and group levels. Case studies, peer reviews and hands-on-practice will enable practitioners to take this work to a new level of understanding.

You will engage in a deep dive into the theoretical and practical elements of developmental action-logics. It is therefore essential that you are actively engaged with this work; debriefing, discussing and integrating developmental action-logics into your coaching, consulting or leadership practice.

3-Phase Programme

Phase 1: Pre-work. Where we lay the groundwork for the 3-day workshop. You will be invited to collate both personal and client experience of the GLP and Action Inquiry leading up to the workshop and explore the ways in which you work with the CDAI and the GLP, and develop a group perspective to share when we all meet.

Phase 2: 3 day workshop. An intensive delve into profiling, taking your understanding of action-logics to a new level. You will learn to discern patterns within a person's reasoning and identify octaves within action-logics. Together, the group will explore coaching practices for supporting shifts across action-logics, focusing on the accelerators. We'll look at how to introduce developmental Action Inquiry into organisations, learning from experiences of success and disappointment. Seeing the GLP and Action Inquiry through a socio-political lens: wider global issues and dilemmas facing us for which the GLP offers insights and paths – this will feature the guest appearance of Bill Torbert across the virtual network.

Phase 3: Project. Action Inquiry Learning. Developing an exercise over 6 months in Action Inquiry learning, culminating in the sharing of the exercise you have worked on, to complete advanced certification.

Facilitation Team
