

Action Inquiry and the Global Leadership Profile Workshop

Tuesday 3rd - Thursday 5th December 2019, Sydney Australia

Offered in Partnership with McKinsey Australia & NZ

This intensive **3 day workshop** is ideal for business leaders, consultants, coaches, researchers and sustainability practitioners who wish to further their personal development and learn about the power and practice of **Collaborative Developmental Action Inquiry**—the approach statistically confirmed as reliably generating both **personal and organizational transformation**. All workshop participants take the **Global Leadership Profile (GLP)** and receive personal feedback on their centre-of-gravity, emergent and fallback leadership action-logics through a comprehensive de-briefing session with a senior GLA Coach. Those who wish, can become authorized to use and debrief the **GLP** with their own clients.

Offered by Elaine Herdman-Barker, Richard Izard and Chuck Palus, with a special guest appearance by Bill Torbert, **Action Inquiry** is the only program that comprehensively blends the what, why and how of transformational leadership development, including:

- 1) the theory of Collaborative Developmental Action Inquiry (CDAI)
- 2) the assessment of leaders' predominant action-logics (either using the **GLP** or in-action diagnoses), and
- 3) the ongoing practice of **Action Inquiry** at the personal, team, and organizational scales and debrief the **GLP** with their clients.

This Workshop is offered in partnership with McKinsey Australia & NZ. Come and learn how this leading, global organization is applying Action Inquiry and the Global Leadership Profile (GLP) to its approach to leadership development.

The Workshop Experience

At our workshops, you will never be passively hearing somebody telling you how to do it right. Rather, you will be exercising active listening and leadership, moving amongst peers in a community of inquiry, receiving direct feedback about your leadership impact, thereby learning together practical ways to help yourself and others:

- Assess current leadership action-logics—the centre-of-gravity, emergent and fallback perspective that guide action and influence results
- Become conscious of and shift action/ mental/ emotional habits that are limiting effectiveness
- Exercise personal power with greater flexibility and mutuality to generate personal and organizational transformation
- Develop collaborative practices that increase mindful, relational and cultural intelligence in the wider organization
- Build capacity to lead from the inside out, confidently responding to the deepest calls of our human nature and of the natural world that holds us
